英文故事（听 / 读）

① 先有个问题（误区）

Quick question: Shang Yang (商鞅) was from Qin, right? Did he help Ying Zheng (嬴政) rule all of China?

② 打脸！

WRONG! Big, big mistake!

Shang Yang (商鞅) died many years before Ying Zheng (嬴政) became emperor. Shang Yang was from Wei (魏国), not Qin — a man who never met the future emperor Ying Zheng!

③ 野史八卦

引子 · 立木（两句，不是重点）

Shang Yang (商鞅) once moved a big wood for gold — so people would believe the new laws. That was only the start.

恩怨 · 谁和他结仇？（人味）

Years before, the prince broke a law. Shang Yang punished the prince's teacher Gongsun Jia (公孙贾). Gongsun Qian (公子虔) — the prince's friend — never forgot. He felt it, and he did not let it go.

八卦 · 告密 → 逃 → 拒 → 送回 → 末路（具象 + 腔 + 人）

Wait for it — When Qin Xiaogong (秦孝公), the ruler of Qin, died, Gongsun Qian (公子虔) and his friends ran to Qin Huiwen (秦惠文王), the new ruler. They said: "Shang Yang wants to fight you!" The new ruler sent men to catch Shang Yang.

Shang Yang ran to the border. His shoes were broken. He was scared. He wanted to sleep at a small shop.

And here's the sad part — The shop man did not know him. He said: "Shang Yang's law — no sleep without papers." Shang Yang looked at the door. It was his own law. He had no papers. No one could help him.

Shang Yang went to Wei. The Wei gate did not open. "No," said Wei. "You were bad to us before. We will not help." They sent Shang Yang back to Qin — like a box nobody wanted.

Do you believe it? Shang Yang tried to fight from his land. It did not work. The ruler set four horses on each side. They pulled him apart in the square, to show everyone: "Do not be like Shang Yang!" That was the saddest, scariest part.

④ 真正的历史（正史）

REAL history: In 356 BC, Shang Yang (商鞅) changed the laws in Qin (NOT the Qin dynasty — that came later!). Farmers and soldiers got good things. Qin became the strongest country. That helped Ying Zheng (嬴政) — years later, the emperor who made one China in 221 BC.
